In the Beginning was The Word ...

If writing the introduction to *Imperium* was the only thing Willis Carto ever did that would be a lifetime achievement, which most of us would be proud to have created.

Years ago I urged Mr. Carto to write more, but he told me he didn't consider himself to be a great writer; but he was proud to help publish the works of great writers that otherwise might never see the light of day.

Recently I had the opportunity to help him inventory one section of his priceless personal library. This section was reserved for books that had been published by this most prolific publisher of forbidden writings on an eclectic collection of subjects: patriotism, history, economics, philosophy, anthropology, politics - a panorama of knowledge that otherwise would be lost forever in dark

age that has smothered western Christian civilization since the last half of the 20th century. If any one else had published *even one* of these books - *or just one* of these periodicals - that feat would have earned a high place in that person's record of lifetime achievements - but for this colossal corpus *oeuvre* to be the product of one man is an awesome achievement.

Even more astonishing, *this list is not complete*. In my own personal library are a number of priceless works published by this publisher extraordinaire that even he no longer has a copy, such as *Race & Civilization* and *Early Civilizations of the Nordic Peoples*.

The world owes Willis Carto a debt of gratitude. There are so many important works that have blessed thousands because of his experience, expertise and efforts, such as *Jim Tucker's Bilderberg Diary* and David Duke's classics, *Jewish Supremacism* and *My Awakening*, etc.

Like Faith, *Words without works are dead*. How do you list Liberty Lobby, Radio Free America and the radio broadcasts, etc.? How do you list all of the other organizations, leaders, movements that have arisen because of just one of these books or publications?

All of these works (sometimes tragically) have withstood the tests of time. Merely reading the titles will bless you with a better education than the average dumbed down *boobis Americana* gets in government schools.

But you need more than a catalog. How precious is your own personal library? Build your own treasure chest of knowledge. Subscribe! Order the books & publications offered by *The American Free Press & The Barnes Review*.
